Subject: RE: Notification of failure to submit cap repair plan - San Jacinto River Waste Pits
Date: Tuesday, December 22, 2015 8:33:00 AM

David,

Yes, I did receive it – thanks. I plan to respond before 11 am today, but did want to discuss a few things first, so I will call you soon about it.

Regards,

Gary Miller
Remedial Project Manager
EPA Region 6 – Superfund Division (6SF-RA)

Subject: FW: Notification of failure to submit cap repair plan - San Jacinto River Waste Pits

Gary – Can you please confirm receipt of the attached from last night? We also sent five hard copies by FedEx to you for delivery today.

My understanding is you spoke with Phil Slowiak yesterday and we should expect approval of the work plan today, so we can start the area delineation and sampling tomorrow. Is that correct?

Please let me know if you would like to discuss anything.

Thanks,
David

Mr. Meyer – We were finalizing the attached draft work plan for submittal tonight when I received

9752220

your email. As outlined in the work plan, the work area delineation and sediment sampling and is tentatively scheduled for Wednesday this week, and construction mobilization is tentatively scheduled for Tuesday next week assuming weather and tide conditions permit.

I will contact Mr. Miller in the morning to make sure EPA has what it needs to approve us moving forward on these issues.

Thank you,
David Keith

Subject: Notification of failure to submit cap repair plan - San Jacinto River Waste Pits

Mr. Keith,

This email transmits the attached letter from Mr. Carl Edlund, Superfund Division Director, notifying you of the failure to submit a cap repair plan for the San Jacinto River Waste Pits site. EPA expects to receive this work plan in a timely manner as described in the letter. Because it is imperative that work begin at the site as quickly as possible, please contact myself, or Gary Miller, the morning of December 22, 2015, if you have any questions with this request.

John C Meyer
Remedial Branch Chief
Superfund Division
